Remarks

It is observed that the Examiner argued that the rejections under 35 U.S.C. 112 had not been dealt with in the applicant's previous letter in reply to the last Office Action.

Thus, the applicant has amended claim 1, trying to overcome all the Examiner's rejections.

It is respectfully observed that the wording "hinge type2 has full support in the specification and particularly on page 3, line 24 and on page 6, lines 17-18.

The applicant, although not requested, has also amended specification page 13, deleting the last two lines of the page.

The amended claim 1 is now believed to be in order for acceptance and allowance thereof is respectfully requested.

It will be noted that a sincere effort has been made to positively respond to all of the points raised by the Examiner.

While it is believed that the amended claims properly define the present invention, applicant would be open to any suggestion the Examiner may have concerning different claim phraseology which, in the Examiner's opinion, more accurately defines the present invention.

Respectfully submitted,
